LET’S MAKE
YOUR PET
HEALTHY

Shiny Star

Omega
3,6 Fatty Acid
for your pets
Healthy Skin
& Coat

Unique formula of **Shiny Star** works internally to improve skin health, reduces shedding and restore your dog's coats shine. It helps to aid in faster recovery from skin diseases. and aids in regrow/grow of hair & shiny coat.

What goes Inside

- Omega 3 Fatty Acids
- Omega 6 Fatty acids
- Biotin
- Vitamin A
- Vitamin D
- Vitamin E
- Zinc

Why Should You Get Shiny Star Supplements for Pets

Improve Skin Health - Dry skin, extensive shedding of fur, and loss of shine are a few indicators that your pet needs nutrients that improve their skin & coat health. Skin and hair supplements for dogs and cats help strengthen the skin barrier and nourish hair follicles, leaving them with shiny coats.

Relief from Skin Irritation - Dry skin and itchiness are common problems among pets with poor eating habits and a lack of grooming. Omega 3 and 6 restores skin moisture and keep your pets away from skin infections.

Supports Fur Growth - Biotin aids in the metabolism of amino acids, which are the building blocks of proteins like keratin-the main protein component of hair and nails. By supporting protein synthesis, biotin contributes to the growth of a strong and healthy coat and reduces shedding. It also helps in maintaining the skin's moisture balance, preventing dryness and flakiness that can lead to excessive shedding.

Improve Coat Texture - Vitamin E contributes to a shinier and healthier-looking coat, reducing brittleness and promoting a soft and lustrous fur appearance. It also helps fight premature aging.

When to use

- When your pets have excessive hair loss
- When your pets have dull coat or straw-like fur
- When your pets have red patches or itchiness
